LASA'91 Preliminary Program
by
Michael E. Conroy
Program Chair

The preliminary program for LASA's XVI International Congress is included in this issue, pages 21-28. The meeting will be held April 4-6, 1991, at the Crystal City Hyatt Regency Hotel, Washington DC. LASA members already may have received preregistration materials (see duplicates in this issue of the *Forum*). The preliminary program lists 220 panels and 22 workshops produced from the Program Committee's selections and new panels originated by approved individual proposals. Asterisks in the preliminary program refer to created panels about which there still may not be full agreement among the Program Committee, the organizers and the panelists. The Committee, appointed by LASA President Jean Franco, emphasized language, literature, arts, women's studies, and Washington DC area groups but no theme or focus was eliminated.

Highlights of the preliminary program include:

- Thirty-five panels under "Arts, Culture and Literature";
- four "Cross-Disciplinary Presidential Panels," organized by Jean Franco in collaboration with Nestor Garca Canclini, emphasizing interaction of language, literature and culture;
- a series of panels and readings involving nine of the region's most important writers, organized by Arturo Arias, and including critical evaluation of their works by the leading scholars focused on their obras;
- eighteen "Women's Issues" panels and a series organized by Francesca Miller that will culminate in the quasi-plenary session "Hemispheric Dialogue among Women";
- twenty-six panels in the economic development rubric;
- seventeen panels on Central America, the most populous regional theme;
- twenty-five sessions reflecting continued interest in democratization and other political processes;

Urquidi, continued ...

Professor Urquidi also will participate in the Kalman Silvert Award Panel, details of which will follow in materials sent to LASA members.

Professor Urquidi received his early training at the London School of Economics, and returned to Mexico in September 1940 to join the Mexican central bank's research department, and to teach at the National University. In the 1940s he participated at a young age in several international conferences, including Bretton Woods. His deep interest in Latin American development began in close touch with Dr. Raúl Prebisch, of Economic Commission for Latin America (ECLA), and continued when he was a staff member of ECLA in Mexico, in charge of Central American integration. After his seven-year involvement with the commission, he became an advisor to the Mexican Government on development issues, with particular attention to the financing of Mexican development.

From 1963, Professor Urquidi's deep academic bent led him to collaborate in building up the social science programs of El Colegio de México, one of the foremost research and postgraduate training centers in Latin America. There he helped develop various programs, while conducting his own research, and in three years he was elected President of El Colegio. He held this post from 1966 until September 20, 1985, a period during which El Colegio established a solid reputation throughout the world for scholarly work.

Professor Urquidi has travelled widely, and he has participated in seminars and conferences in Asia, Africa, Latin America and North America. He also has maintained a strong interest in the science and technology aspects of development, which he regards as his main center of attention today. He was for seven years a member of the U.N. Advisory Committee for the Application of Science and Technology to Development, and contributed to the U.N. conference held at Vienna in 1979. His participation in population matters is well-known. He was instrumental in the Mexican government's transcendental decision to implement a population policy in 1973-74. He is a past member of the International Union for the Scientific Study of Population and chaired its Committee on Population and Development.

In 1980 he was elected president of the International Economic Association, the first national of a developing-country to become president of that organization since it was founded in 1950, and he set about organizing an intense program of roundtable conferences throughout the world. He visited 37 countries during his tenure and stimulated interest in participation in the works of the IEA. Under his leadership, the IEA held its Seventh International Congress in Madrid in 1983, on the subject "Structural change, economic interdependence and world development." Professor Urquidi has continued to write and lecture on these issues. In an article in the August-September 1983 issue of Development Forum, he discussed the implications of the North-South imbalances for the Third World and for South-South cooperation.

Professor Urquidi's long dedication to development issues has evolved in a framework of non-conventional thought, in the light of the reality of Latin America, and later, of Asia and Africa. His efforts have focused an research and writing, and helping to train new academic staff, rather than direct participation in governmental or intergovernmental bodies. Even without such participation, his writing has influenced the views of policymakers in the Third World as well as those of leading Latin American scholars and authors.

Since early 1986, Professor Urquidi's major interests have been: the implications of the external debt burden, especially for Mexico and the Latin American region; changes in the world economy as they affect Latin America; science and technology policy, particularly in Latin America; employment implications of past population growth; adjustment and renewed growth and development policies in Mexico; and environmental issues and development. He has lectured and written on these subjects in Mexico, the United States and other countries. In 1986 and 1987 he was a visiting scholar at the University of Washington at Seattle, and at the Institute of Latin American Studies, University of Texas at Austin. In 1988 and 1989/90 he taught a full semester course for undergraduates at El Colegio de México on Contemporary Economic and Social Development of Latin America. In 1989, he was appointed Research Professor Emeritus by El Colegio de México.

Victor L. Urquidi is the sixth recipient of the Silvert Award, established in 1982, as memorial to LASAs first president, Kalman Silvert, to honor eminent senior members of the Latin American Studies profession who have made distinguished lifetime contributions to the study of Latin America and to the advancement of the profession generally. Previous winners were John J. Johnson (1983), Federico Gil (1985), Albert O. Hirschman (1986), Charles Wagley (1988) and Lewis Hanke (1989). The winner is selected by a committee consisting of LASA past presidents and the editor of the Latin American Research Review. Members of the 1991 committee were: Paul Drake (University of California at San Diego) chair; Cole Blasier (Library of Congress); Wayne Cornelius (University of California at San Diego) and Gilbert Merckx (University of New Mexico).
LASA sponsored its sixth annual research seminar in Nicaragua from June 16 through June 30, 1990. As in the past, one purpose of the seminar, which was open to all Spanish-speaking LASA members, was to provide the participating scholars with extensive exposure to the current, rapidly-changing situation in Nicaragua. Another purpose was to introduce prospective Nicaraguanists to colleagues, think tanks, research facilities, archives and universities in that country. The twelve participants included eight professors, two Ph.D. candidates, one M.A. candidate and one non-academic. The academic disciplines represented were political science, sociology, history, Latin American studies, law and art.

The seminar was designed and coordinated by Thomas W. Walker (Political Science, Ohio University). The planning and logistical facilitator was Alice McGrath of Ventura, California. Many arrangements in Nicaragua were provided by Architects and Planners in Support of Nicaragua (APSNICA), particularly Sandra Mejía. Although the group spent a number of days in other areas, its central base of operations was Managua. The participant fee of $1250 ($1050 for students) covered all seminar costs including round trip air between Mexico City and Managua. Appropriately lower prices were available for those not using group air fare or those purchasing segments of the seminar. The itinerary was designed to reflect the interests of the group, which this year clustered around the impact of the change in administration, internal democratization in the FSLN, roles of churches and grass roots organizations, as well as the state of agrarian reform and the rural poor. The two week itinerary included the following activities:

Saturday, June 30. An exclusive, early morning interview with Ex-President Comandante Daniel Ortega. (For reasons beyond his control, Ortega had been unable to keep interview appointments with the group on two previous occasions that week, but at 2:00A.M. he drove himself over to the small hotel where the group was staying, inquired of the one individual who was still awake if we would still like to talk with him, and, after the group was awakened, gave us about an hour of free flowing question-and-answer.) Subsequent departure for the airport and return to the United States.

As in the past we were successful in obtaining interviews with almost all individuals from whom we requested ones. The exceptions were Cardinal Miguel Obando y Bravo and two individuals close to Mrs. Chamorro. As a result, the group had exposure to a variety of opinions, inside and outside of the government, to the right and left.

Given the success of the first six seminars, it is likely that LASA will sponsor a seventh study-trip in the summer of 1991. As in the past, it will be open to all LASA members, regardless of political point of view. In fact, diversity of opinion is most welcome. For further information write, telephone or fax: Thomas W. LETTERS

To the Editor:

At the time when so many activities are in the planning stage for the celebration of the quincentennial anniversary of Christopher Columbus' arrival on this continent, it may be appropriate to review some of the terms commonly used in reference to such an important event.

Columbus, of course, did not discover another route to India but a new continent. Therefore, to call the inhabitants of this continent "Indians" was, from the very beginning, a big mistake which has been preserved for 500 years.

After 500 years of using certain terms, these have become traditional, and people normally are not willing or inclined to give them up for new, although more precise, terms. Nevertheless, with a little good will and effort, it is possible to change some inaccurate and unnecessary names or adjectives. Let us remember that blacks insisted on changing previous names referring to their race to either "black" or "African-American" and the effort has been successful.

This may be the best time to correct this mistake. There is nothing wrong with saying Navahos, Sioux, Aztecs and Incas. The umbrella term "Native American" is in use already in various governmental documents, such as census forms. Why not use it more extensively?

I became aware of this situation only a few years ago when, in the introductory course to Latin American Studies at Baylor University, one of my students asked what the indigenous people of this continent were called before Columbus' arrival. It took me a minute to come up with the answer: In what now is Mexico, there were Aztecs, Toltecs, Mixtecs, Otomies, Purepechas, etc. None of these nations knew they were "Indians." (They could have been Asiatic, but not Indians.)

I am aware of the fact that traditions, like myths, die hard, but is it not time that, at least among scholars, an effort should be made to set the record straight? This task is very possible if the intelligentsia set the pace with an open-minded attitude and good will.

Sincerely yours,

Professor Joseph F. Vélez

Dear Readers:

The Center for Iberian-American Studies, a section in the Department of Ethnography and Folklore at the Faculty of Philosophy, Charles University, was created in 1976 as an interdisciplinary workshop dedicated to the study of problems related to the Iberian world and its relations with Czechoslovakia and Central Europe.

The founders' undertaking was a continuation of older traditions of research into the history and culture of the Hispanic world at Czech and Slovak institutions. A number of important scholars in Iberian-American studies backed the constitution of the Center by contributing articles to the Center's Iberoamericana Pragensia. Published since 1967 in Spanish and Portuguese, it is the first scientific journal of its kind to exist in Central and Eastern Europe.

To date the Center has established contacts with a number of relevant institutions, particularly by exchanging publications. The workshop has hosted experts like Lewis Hanke (United States), F. Retamar (Cuba), Carlos Rama (Uruguay), Augustín Yáñez and Silvio Zavala (Mexico), and H. Kamen and J.H. Elliot (Great Britain).

The Center, together with external collaborators, prepared an extensive History of Latin America; published in 1978, it was the first publication of this kind in Eastern Europe, and gradually has shaped today's Czechoslovak Iberian-American studies.

The Center has worked as an educational institution, preparing university students in the teaching of history and contemporary issues of Latin America.

Thanks to the cultural treaties existing between Czechoslovakia and Spain and the countries of Latin America, members of the Center can work at institutions in Cuba, Mexico, Peru, Panama, Brazil, Chile, Spain and the United States.

Sincerely yours,

Professor Jan Opatrný
Director, Center for Iberian-American Studies

ANNOUNCEMENTS

Millersville University of Pennsylvania recently created and installed the Computerized Information Retrieval System (CIRS) on Columbus and the Age of Discovery to operate through 1993 as its contribution to the national commemoration of the Columbian Quincentenary. This dial-in retrieval system provides access to two electronic databases. One contains textual material, e.g., whole articles (from journals, newspapers, etc.), conference papers, and other material relating to Columbus and the Age of Discovery; the other database will hold information on quincentennial activities across the nation and around the world. Recent unpublished research papers, bibliographies, essays, articles, and other studies representing all disciplines are welcome. Previously published materials also may be submitted, but they must carry a release from the original publisher. All material will be subject to editing before incorporation into the retrieval system and will be available to all users of CIRS. In lieu of remuneration, a free, one-year membership will be given to any author whose article or other contribution is incorporated into CIRS. Privileges of membership include all the features of CIRS, that is, accessing material of other contributing authors, researchers and writers; tapping into a listing of quincentennial activities by regions, states, and nations; a fast string search feature in each category; and use of an efficient electronic mail system for person-to-person communications and bulletin board posting. Endorsed by the Pennsylvania Historical and Museum Commission as "a significant contribution to the celebration of the quincentenary," CIRS is available immediately through modem hook-up over regular phone lines and in the future through Bitnet. CIRS will incorporate material until the end of 1993; after 1993 CIRS will continue to be available for research. Write for information on a free, on-line demonstration. Thomas C. Tirado, Director, CIRS-Millersville University, Millersville, PA 17551-0302, telephone: (717) 872-3551; or Bitnet: TCTIRADO@MILLERSV.

LASPAU Network Project seeks to encourage computer applications for academic purposes throughout the Americas. Because LASPAU supports international education exchange programs, one of its goals is to stimulate greater communication among former grantees and their colleagues and faculty in the United States. A more efficient flow of information among U.S. and Latin American scholars will promote greater international peer review, will stimulate joint research activities, and should lead to a more effective use of resources. Increased communication throughout the Americas should enrich all academic communities and will contribute to further inter-American understanding. An IBM grant to LASPAU will allow for several initial activities which we hope will stimulate active participation from the Latin American and U.S. communities we wish to serve. As a first step, we will establish a LASPAU Network Project Distribution List, which will be used to announce events and exchange ideas related to the project. We will compile and make available a list of electronic mail addresses of Latin American and Caribbean scholars, and we will gather information on the requirements and procedures for connecting new sites to international computer networks. This information, as well as advice on the subject of computer communication, will be provided to all interested parties. Aside from supporting the goals of the LASPAU Network Project, Bitnet will provide LASPAU with additional capacity to communicate more efficiently and cost effectively with colleagues in the U.S. and Latin America. Cesar Galindo, a doctoral candidate in computer sciences at Harvard University is the project coordinator. We are very interested in hearing your ideas and reactions to this project. Bitnet: LASPAHARVARDA, and be sure to include a recipient name in the header of your message.

The Middle Atlantic Council of Latin American Studies (MACLAS), a regional affiliate of LASA, is now accepting membership applications for 1991. Founded in 1979, MACLAS strives to promote and to develop interest in Latin American studies and affairs. Membership is open to scholars, researchers, teachers, students, and interested professionals in all disciplines in the Mid-Atlantic region. MACLAS has an annual, two day, spring meeting at which members present original research findings. An editorial board makes a selection of these papers and, following this referee process, publishes them in Latin American Essays. For a membership application, write to: MACLAS, c/o Dr. A. Cohen, Secretary/Treasurer, Department of Economics, Rauch Business Center #37, Lehigh University, Bethlehem, PA 18015.

The Social Science Research Council (SSRC) plans to offer dissertation and postdoctoral fellowships for training and research on peace and security in changing world, under the direction of the Committee on International Peace and Security. Funding is being sought for this program from the John D. and Catherine T. MacArthur Foundation. The fellowships are intended to support innovation and multidisciplinary research on the implications for security issues of worldwide cultural, social, economic, environmental, and political changes, and of security issues for these changes. The Committee welcomes applications from the social and natural sciences and from the humanities. Applications are especially solicited from area studies scholars. To address a changing world the study of international relations requires more than a focus on the state and its role in the international system. The study of peace and security must supplement its longstanding concern with East-West relations and military, particularly nuclear, threats to security, by exploring the multiple effects on peace and security of changes in the international political and economic systems. Fellowships will require their recipients to undertake training that adds a new competence to the disciplinary skills they already have. Applicants must clearly demonstrate why additional training is needed. Proposals must spell out the training program and how that training will be obtained. The following will be available: dissertation fellowships, postdoctoral fellowships, and additional support for area studies specialists. Institutions are eligible for grants to reimburse the costs of health insurance, tuition, office services and other direct institutional services for fellows who are in residence or for area studies specialists. There are no citizenship, residency or nationality requirements. Applicants must submit Council application forms prepared in compliance with the guidelines, a narrative description of the proposed training and research program, samples of written work, letters of reference and transcripts. An application kit should be requested well before the deadline. Applications must be received at the Council’s offices no later than December 1, 1990. Awards will be announced in April 1991. For complete information and application materials please write to: Social Science Research Council, Program in International Peace and Security, 605 Third Avenue, New York, NY 10158, USA. The Council especially encourages women and members of minority groups to apply. The Council does not discriminate on the basis of age, color, creed, disability, marital status, national origin, race or sex.

The Inter-American Foundation was established to channel development assistance to the poor of Latin America and the Caribbean. To complement this effort, the IAF offers fellowships to support development practitioners and researchers from Latin America, the Caribbean, and the United States whose research and career interests are related to development activities among the poor. IAF fellowships generate information for development problem-solving while building a community of scholars throughout the Americas with personal and institutional commitments to grassroots development. Fellows examine the efforts of rural and urban poor people to improve their lives, their methods
of organization and production, and policies and programs designed to alleviate their poverty. The Foundation disseminates research findings of its fellows to persons and institutions concerned with development. The IAF offers four fellowship programs. The Latin American and Caribbean Program assists development practitioners and researchers from these regions to pursue graduate studies in the United States. The Doctoral and Master's Fellowship Programs support field research in Latin America and the Caribbean of graduate students enrolled in U.S. universities. The new Dante Fascell Inter-American Fellowship supports grassroots development dissemination activities of distinguished Latin American and Caribbean leaders. These fellowships provide only partial support, and fellows are expected to obtain supplemental funds from other sources. The Institute of Latin American Studies, The African and Afro-American Studies Research Center and The Benson Latin American Collection of the University of Texas at Austin announce a Rockefeller Foundation Fellowship Program in the Humanities on Mesoamerican Indigenous People. Even though ethnicity is becoming a major dynamic force over the entire world, it has been bypassed in most classical social, political, and economic theory. One reason for this is that each case has its own genius, each has a unique historical trajectory that requires careful study of specific historical processes. Only confusion follows from assuming that blacks in Boston, Birmingham, Belize, and Brazil confront the same challenges, or that the survival problems of the Native American Sioux, Ixil, Shuar, and Shokleng are the same. The fellowship program seeks to explore these processes by inviting scholars to work in the Benson Latin American Collection and with scholars at the University of Texas on the history of ethnicity and ethnic relations in Brazil, Middle America and the Caribbean. Candidacy will be open to mature scholars with demonstrated accomplishments and to junior scholars who provide evidence of scholarly potential. Candidates must have an acceptable level of familiarity with the various disciplines and in the languages to be used. The program is open to North and Latin American scholars from any area of the humanities. Applicants should submit a 100-word abstract, an essay of no more than 1,500 words detailing the theoretical and historical rationale and plan, the research methods, the anticipated sources of data, and a full curriculum vitae and bibliography. The applicant should include three letters from persons familiar with the area of research and three from scholars familiar with the applicant's professional work; individuals may serve in both capacities. Inquiries and completed applications should be addressed to Ms. Pat Boone, Rockefeller Program in the Humanities, Institute of

Latin American Studies, University of Texas, Austin, TX 78712, telephone: (512) 471-5551. The deadline for applications is January 15, 1991. Fellows will be announced about April 1, 1990 and will be expected to take up residence by September 1, 1991.

The Social Science Research Council offers four fellowships and grant programs in 1991 to support research on the urban underclass. The purpose of the programs is to advance research on the structures and processes that generate, maintain, and overcome the conditions and consequences of persistent and concentrated urban poverty in the United States. Undergraduate Research Assistantships offer financial support of up to $5,000 (per student) to support research conducted by undergraduate students in collaboration with faculty and/or advanced graduate students. (Up to five undergraduates may receive support in connection with a single project.) Dissertation Fellowships provide financial support of up to $22,000 for full-time research directed toward the completion of the doctoral dissertation. The Summer Dissertation Workshop for Minority Students provides training in research design and analysis to assist students in developing a dissertation proposal. Postdoctoral Grants provide up to $37,500 to support research by scholars with Ph.D. or comparable research experience. Application deadline is January 10, 1991. For further information and application materials please contact: Social Science Research Council, Research on the Urban Underclass, 605 Third Avenue, New York, NY 10158, telephone: (212) 661-0280.

ADVANCE REGISTRATION: To preregister, complete and return the form included with preregistration mailing. A duplicate is in this issue of the Forum. Official badge card will be mailed before the congress. Be sure to bring the badge card—it is your only proof of registration. Proceed to the tables in the preregistration area in the hotel and pick up a badge holder, an addendum to the program, and information on the film festival and other events. Programs will be mailed prior to the congress; please don’t forget to bring your program to the meeting since replacements will not be available. See this edition of the LASA Forum for a preliminary list of panels and workshops. Materials made available later to LASA members will feature additional special events. Please Note: All attendees are required to register; no exceptions can be granted. Expect enforcement.

DEADLINE: Advance registration deadline is February 8, 1991.

CANCELLATIONS: Requests for refunds of preregistration fee will be honored if received in writing by February 22, 1991.

MEMBERSHIP FEES: There is a substantial difference in the registration fees for LASA members and nonmembers. To take advantage of the lower members’ rate, please pay your 1991 dues when you submit the advance registration form. Membership forms are included in this issue. We request that you send a separate check for dues payment. Should you have overlooked paying your 1990 dues, you still are welcome to do so (see membership forms in past Forums and mailings). Use correct forms for years you are renewing.

GRAN BAILE: There will be a very special TWENTY-FIFTH ANNIVERSARY GRAN BAILE on Friday evening, April 5, beginning at 9:00 p.m. Tickets will be available for sale only at the congress. They will cost US$5.00 until Friday afternoon and US$6.00 at the door.

WELCOMING RECEPTION: We are pleased to announce that Local Arrangements Chair Arturo Valenzuela, and the Latin American Studies Program at Georgetown University have offered to host a reception in the galeria of the Intercultural Center on the Georgetown University campus on Wednesday, April 3, from 7pm to 9pm. All LASA’91 attendees are invited.

REGISTRATION SCHEDULE: Badge holders, addenda and other materials for pre-registrants will be available on a generous schedule each day. Please see your program for on-site registration hours. But again, we urge PREREGISTRATION to save you time and fuss. Don’t wait until the last minute to preregister. Please do it by return mail.

PAPER SALES: Available papers will be sold during the following hours, at a minimum: Thursday, 10:00 a.m. to 6:00 p.m.; Friday, 10:00 a.m. to 5:00 p.m.; Saturday, 9:00 a.m. to 1:00 p.m. See separate sheet for instructions to paper presenters.

TRANSPORTATION: Classic World Travel, Inc. has promised faithfully to give LASA members the best fares and marvelous service. Coupons with complete information are included in preregistration mailing. Call Classic at 800-877-544 for further information. Booking with Classic also saves LASA money, since free tickets earned can be utilized by LASA officers traveling to official LASA functions.

Avis car rental is offering discounts to LASA members. Daily rates are from $38.00 for subcompacts to $41.00 for 4-door full size. Daily rate includes 150 free miles per day. Avis also will discount other qualifying daily, weekly or weekend rates by 5%. Call 800-331-1600. Mention national account #23601K, and group number B 796527 when making reservations.
HOTEL ACCOMMODATIONS: Please use the reservation card included in the preregistration mailing to make a reservation at the Hyatt Regency Crystal City, our headquarters hotel. The Hyatt is located very near Washington National Airport. Rates are $92.00 single/double, $112 triple and $132 quadruple. There is a complimentary shuttle from the Washington National to the hotel. It is just blocks from the Metro, and ten minutes to government offices and the Washington business area. Worldwide Hyatt toll-free is 800-233-1234. Mention LASA membership when calling this number. Make sure you send your reservation slip to the Hyatt, and not to LASA.

The Hyatt will refer reservation slips to the Compri Crystal City (rates at the Compri not to exceed $95.00 single/double, with $15.00 per extra person) when the Hyatt block is sold out (there are 400 to 500 rooms at the Hyatt, depending on the date); the Compri, in turn, will refer reservations to Howard Johnson after the 125 rooms at the Compri are reserved. Rates at Howard Johnson are $89.00 single/double. If your preference is for either of the two overflow hotels at the outset, do not use a Hyatt reservation slip. Call 703-549-3434 for the Compri, or 703-684-7200 for Howard Johnson. Cutoff dates for these last two properties may be earlier than the 3/13/91 cutoff date for the Hyatt. The Compri is a two-minute walk from the Hyatt; Howard Johnson is 5 to 7 minutes away on foot.

CHILD CARE: Arrangements will be made locally for limited service. After October 31 you may contact Local Arrangements Committee Chair Arturo Valenzuela at the Latin American Studies Program, Georgetown University, Washington, DC 20057, 202-687-6079. Please do not write or call before that date.

ALTERNATIVE HOUSING: For information on less expensive housing, contact the Local Arrangements Chair (above). Please do not inquire about this before November 1, 1990.

FURTHER INFORMATION: Contact the LASA Secretariat, 946 William Pitt Union, University of Pittsburgh, Pittsburgh, PA 15260; telephone 412-648-7929. Congress registration form, dues renewal form, and payments for registration and membership (but not the hotel reservation slip) should be sent to the secretariat at this address.

Members residing outside the U.S. must send either a money order, a check drawn on a U.S. bank, or a UNESCO coupon for the U.S. dollar amount payable.

ADVANCE REGISTRATION FORMS RECEIVED AFTER FEBRUARY 8, 1991, WILL BE RETURNED

*On May 7, 1991 LASA will be 25 years old. Come and celebrate LASA's success at yet another of its fine international meetings.

NOTICE TO PAPER PRESENTERS
AND PAPER CONSUMERS
LASA’91

FOR PRESENTERS: As noted in the Call for Papers for LASA’91, participants appearing in the program as paper presenters are required to send one copy of their paper to the LASA Secretariat, 946 William Pitt Union, University of Pittsburgh, Pittsburgh, PA 15260, by April 1, 1991. In order to make papers available at a centralized location at the congress (for a nominal $1 charge), paper presenters are requested to take 50 copies of their paper to the paper sales area of the hotel upon arrival at the meeting.

A space for every paper listed in the program will be reserved on a table in the paper sales area. The spaces will be arranged in alphabetical order, according to the last name of the author, as that last name appears in the program. As the papers arrive, staff will keep one as a master copy and place the remaining copies in the proper slots. (Presenters: please do not place the copies in the paper sales area yourselves). A special table will be provided for papers that "appear" without an apparent place in the program, or that do not fit in their slots.

Please use an 8 1/2 inch by 11 inch format if at all possible. This facilitates their distribution both at the congress and later through the secretariat. Also, copying on both sides means less weight and paper.

Presenters traveling from abroad may find it difficult or impossible to bring 50 copies of their papers because of cost and/or weight restrictions. If this is the case with you, inquire of LASA staff in the paper sales area about arrangements that may have been made to provide limited duplication of your paper. If such arrangements proved impossible, it will be up to the presenter to make sure that LASA has at least one copy of the paper (either at the secretariat in Pittsburgh, or at the congress site) for later distribution.

FOR CONSUMERS: LASA has no way of knowing beforehand if a given paper will appear at the congress. If there is an empty slot where you had hoped a paper would be, please check back later. If it still does not appear, check the next issue of the LASA Forum for availability. If notice of it is not published there, a formal paper may not have been prepared by the author you are interested in.

The provision of one slot per paper should expedite distribution this time around. LASA will make every effort to make paper sales go as smoothly as possible. Meanwhile, please be patient with all of us who are working in good faith on your behalf in an area that is bound to be highly populated.

FOR EVERYONE: Please feel free to contact the secretariat with any questions. Thank you for anything you can do to make sure this important LASA activity is carried out effectively.
